

## PMV RMA No.

### Returning equipment to PMV

The following applies for all products returned to PMV for repair, credit, investigation or calibration.

Any shipment should be accompanied by a RMA number issued by PMV. Please contact PMV to get a RMA number before shipping any product to PMV. The goods should be clearly marked with the RMA number. Please note that RMA number is only valid for 1 months after date of issue.

Products with a valid RMA number shall be shipped at the customer's expense to:

PMV Automation AB  
Korta Gatan 9  
SE-17154 Solna  
Sweden

Please contact [OErdal@flowserve.com](mailto:OErdal@flowserve.com) for any questions regarding shipments.

### Control of Substances Hazardous to Health

Please always fill in the below. Any equipment that arrives to PMV without this section filled out will not be accepted by PMV.

If the equipment has been in contact with any materials which, short term or long term, are hazardous to health, the equipment must be thoroughly cleaned before shipment and any hazardous materials or residues of hazardous materials must be removed.

Please check the appropriate box below:

- The equipment **has not been in contact** with any material which is hazardous to health
- The equipment **has been in contact** with the material(s) listed below but has been completely decontaminated and is now safe to handle and dismantle without any special precautions or personal protective equipment.
